- Figma (for design)
- JetBrains IntelliJ IDEA & WebStorm

WEB DEVELOPMENT & OTHER

- RESTful APIs
- Responsive Design
- API integration
- CI/CD
- SEO Optimization

PROFILE

Full Stack Software Engineer with 2+ years of experience in developing dynamic, user friendly web applications. Skilled in HTML, CSS, JavaScript, C++, and others with expertise in both front-end and back-end technologies. Passionate about solving problems, optimizing user experience, and creating scalable, high quality solutions. Always eager to learn and adapt to new technologies.

EDUCATION

ALX   2023-2024
Full Stack Software Engineering

- Developed expertise in both front-end and back-end technologies, including JavaScript, React, Node.js, and MongoDB.
- Built and deployed dynamic web applications with full stack functionalities using modern frameworks and databases.
- Strengthened problem solving and debugging skills through real world coding challenges and projects.

FreeCodeCamp   2023
Responsive web design & Legacy JavaScript DSA

- Developed responsive websites using HTML, CSS, and JavaScript, with a focus on user centered design principles.
- Mastered core data structures and algorithms in JavaScript, including arrays, stacks, queues, and more, enhancing problem solving and coding efficiency.
- Completed hands on projects and coding challenges, applying both web design and DSA skills to build practical solutions and optimize code performance.

HiLCoE School of Computer Science and Technology   2nd Year
Software Engineering

- Studied advanced C++ and Java programming, focusing on object oriented concepts and software development techniques.
- Gained hands on experience in database management and design using SQL Server, enhancing data manipulation and query optimization skills.
- Developed expertise in C# programming, building desktop applications with a focus on user interaction and database integration.

SOFT SKILLS

- Problem solving
- Strong communication
- Time management
- Team collaboration
- Adaptability
